

# CONTINUING NURSING EDUCATION CREDIT OPPORTUNITY

This web-based learning module is being implemented as part of an East Tennessee State University (ETSU) Doctor of Nursing Practice (DNP) Project in conjunction with the Tennessee End-of-life Partnership. Data obtained from this program will be collected and is in observance of all ETSU IRB/VA guidelines.

## *Advance Care Planning: Enhancing the Knowledge of Clinical and Advance Practice Nurses in Tennessee*

**Module available  
January through  
March 2017**

This continuing nursing education activity was approved by the Tennessee Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

For questions, please email Holly D. Dockery BSN RN at [zhcd3@etsu.edu](mailto:zhcd3@etsu.edu)

**Purpose:** to educate clinical and advance practice nurses in Tennessee on advance care planning topics and evaluate the benefits of a web-based learning module as an educational intervention

**Aim:** to improve the knowledge of clinical and advance practice nurses in Tennessee on advance care planning topics so that the quality of life (QOL) and quality of death (QOD) for the rapidly growing older adult population may be enhanced.

*This program is designed for: ADN and BSN prepared RNs, LPNs, MSN and DNP prepared nurse practitioners, clinical nurse specialists, nurse educators and administrators, and nursing students at any level*

### **Objectives:**

By module completion, the nurse will:

- demonstrate improved knowledge on advance care planning (ACP).
- will identify three communication techniques to use during the advance care planning process.
- identify three methods to better incorporate ACP into daily practice

Log on to [www.endoflifecaretn.org](http://www.endoflifecaretn.org) to access the web-based learning module! Click on "Continuing Nursing Education" in the main menu.

\*CNE credit hours will be awarded only upon completion of the entire module and associated surveys
